NUMBERS BINGO!

Each buddy fills in their Bingo sheet, entering a different number in each space. The Buddies work side by side and take turns playing Announcer. When you are Announcer, look at your Buddy's sheet, and announce a math equation that equals one of their numbers. (Eg. If your Buddy filled in the number '6', an example of an equation to equal six might be "Two times three!") Your Buddy will cross off the answer, and try to get a complete line, either vertically or horizontally, to win. Depending on your skill level, you might decide to play Addition/Subtraction Bingo, Multiplication Bingo, Division Bingo, etc.!
